S. DHANASABARISH

AI & Data Science Student | Full-Stack & Vibe Coder

Chennai, Tamil Nadu • +91 8248667253 • dhanasabari2004@gmail.com • LinkedIn • GitHub

PROFESSIONAL SUMMARY

Driven B.Tech Artificial Intelligence & Data Science student with practical experience building AI-powered applications and full-stack web solutions. Proficient in AI-assisted programming ("Vibe Coding") for rapid prototyping, rapid debugging, and system architecture. Experienced with React.js, TypeScript, Java, Spring Boot, and Supabase to deliver robust user experiences and efficient REST API backends.

TECHNICAL SKILLS

Programming: Python, Java, JavaScript, TypeScript, HTML5, CSS

Full-Stack & Web: React.js, Node.js, Spring Boot, REST APIs, Supabase, Vite

AI & Data Science: Artificial Intelligence, Machine Learning, Data Analysis, Generative AI

Tools & Workflows: Git, GitHub, VS Code, AI-Assisted Development, Rapid Prototyping

PROJECTS

ECHOO ROOM – AI Emotional Support Platform

React.js | TypeScript | Vite | Supabase

- Architected an AI-powered emotional support platform for students featuring multilingual text interactions and mood tracking.
- Integrated Supabase for secure authentication, user state management, and real-time backend data storage.
- Leveraged AI-assisted development tools to rapidly prototype features and accelerate debugging workflows.

REOVA – AI-Powered Full-Stack Application

React.js | Java | Spring Boot | REST API

- Building a responsive full-stack platform using React.js for frontend and Spring Boot for scalable backend services.
- Implemented RESTful API communication layers and system health monitoring endpoint handlers.

Clinical Lab Website Frontend

HTML5 | CSS3 | JavaScript | GitHub

- Designed a clean, responsive web interface for clinical laboratory services, ensuring multi-device accessibility.

EDUCATION

Madha Engineering College (Anna University) *2023 – 2027*

B.Tech in Artificial Intelligence & Data Science — Currently Pursuing

CERTIFICATIONS & LEARNING

- **Tata:** GenAI Data Analytics Simulation (2026)
- **Cognifyz:** Data Science Tasks (2026)
- **Cognebula:** Prompt Crafting (2025)
- **Cloud:** AWS & Azure AI/Cloud Learning (2026)
- **Hackerz:** Tech Trivia (2025, 2026)

LEADERSHIP & ENGAGEMENT

- **AWS Cloud Club:** Core Team Member & Event Coordinator (2025–2026).
- **Dandelion 2K26:** Social Media VP & VIP Management. Managed media outreach and event operations.
- Active open-source contributor maintaining portfolio builds on GitHub.
